

## Case History 557

### *Wastewater Lift Station Rehabilitation and Protection*

Owner: Greater Houston Wastewater  
Location: 13105 Old Westheimer Road  
Date: February-March, 1999

Wastewater lift station 50' diameter 70' deep experiencing moderate deterioration of precast walls. The surface was prepared by water jetting (10,000 psi) and abrasive blast. A-6 was spray applied at 60 mils to rehabilitate the surface integrity and provide long-term corrosion protection.
