

## Case History 545

### *Sanitary Sewer Pipeline Rehabilitation and Protection*

Owner: Metropolitan Water Reclamation District of  
Greater Chicago  
Location: Skokie, IL  
Date: 1997

A 6'6" semi-elliptical sanitary sewer pipeline rehabilitated with a composite shotcrete and epoxy system.

The invert of the pipeline was poured in place. Shotcrete was robotically applied to the crown and walls and trowelled to receive the coating.

A-6 solvent-free epoxy coating was spray-applied to prepared surfaces to provide long-term corrosion protection.
